## DETAILED ACTION

### *Double Patenting*

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-20 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-40 of U.S. Patent No. 6,684,10 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because they claim the same cardiac management rhythm management method and apparatus for sensing a cardiac signal and computing curvatures at sample points on the sensed cardiac signal. Then having means to extract features from the computed curvatures, and comparing and analyzing the extracted features with a set of predetermined templates. Thereafter, classifying the sensed cardiac signal based on the outcome on the comparison and analysis.

Also, the claimed implantable device is readable on the catheter lead 510 that is connected to the at least one electrode in figure 5 of the above U.S. Patent No. 6,684,10 B1.

### *Conclusion*

The prior art cited on the IDS is made of record and not relied upon is considered pertinent to applicant's disclosure.
